About Us

We are a small town business located in Bloomfield, Nebraska. I was brought up with strong work ethics and workmanship. Following ten years active duty in the US Navy submarine community, I attended the University of Guam where I graduated with a degree in Computer Science along with a minor in Arts with a focus in photography.

After relocating back to my hometown, I launched my photography business. Upon joining the Professional Photographers of America (PPA) and Professional Photographers of Nebraska (PPofN), I have continued to invest in my education to provide professional services and products to my customers.

The Senior Experience

WHAT IS THE The Senior Experience

Senior sessions are supposed to be fun and worry free. We take care of everything throughout the entire process. We meet before a camera is ever picked up to discuss your expectations, learn about the senior's style, likes, hobbies, and interests. This is an important step for us to capture unique imagery for every senior because they are just that, unique. Once we have a plan, we set some dates and shoot without limitations.

Every session is a custom experience based on what the senior and parent's intentions include. We can shoot for albums, senior montages, wall art, or anything else you wish. The best part of a custom experience is that there are no time limits, outfit limits, or location limits. We shoot based upon your package products.

CONGRATS, YOU MADE IT

Rite of Passage

“So many of our dreams at first seem impossible, then they seem improbable, and then, when we summon the will, they soon become inevitable.” - Christopher Reeve

The senior year is a big deal for a student, I mean a BIG deal. It is their rite of passage into adulthood, it is not just their graduation from school, it is their doorbell to becoming an adult. Senior photos are an experience and a big part of this passage. It is the year that mom and dad's child makes some of their most important decisions such as college, professions, and how they will spread their wings. This is truly a once in a lifetime event as it is not an

end to their childhood, but a celebration of what is to come!

Senior photos are not just an experience for the senior, but also for mom and dad. Having professional photos taken provides the opportunity to capture an important time in their life and have physical memories in a variety of products. Once your senior has moved on, those memories can be relived through artwork.

But Choo

We strive to provide an enjoyable experience from the initial contact and throughout the entire session. The initial consultation is one of the most important, as it is our opportunity to see what makes the senior unique. Our primary goal is to capture your senior as they are, and we take inputs from both the senior and the parent to ensure we meet their needs.

Our purpose is to provide artwork that can be passed down through generations. We feel it is important to provide quality products, not just a bunch of digitals on a disc. With products that are archival quality, mom and dad always have something to remember by.

We provide professional location and studio lighting to each session because every subject is unique and deserves the best.
